- multifunction hearing protectors

SUPREME PRO

We all know that a shooter has to protect his ears to prevent life long hearing damage. The solution for this issue is the Supreme Pro active hearing protector. Harmful sounds are decreased to a safe level of 82dB [A] and low-level sounds are amplified [ASIC* - MSA SORDIN system]. MSA SORDIN has developed an electronic circuit that is unique for the Supreme Pro. Electronic component is replaced with an ASIC*. This results in a low battery consumption and instead of cutting of peaksounds it compresses them down to an unharmed level, 82 dB[A]. This means that you can communicate with your colleagues during a target practice or ball-trap, even when others are shooting. When using the Supreme Pro you get more than just a hearing protector - communication & amplification with advanced technology is simply to use.

* Application Specific Intergrated Circuit

Our mission is to offer hearing protectors that reproduce a natural and realistic sound. You should have perfect locations hearing without any disturbing noise. Superb sound quality let you hear better when wearing our hearing protectors. All our products in Supreme range can withstand harsh environment.

High quality technical features:

- ✓ Supreme Pro: Splashproofed
Supreme Mil: Waterproofed
- ✓ Excellet sound quality with perfect location hearing, up to 4 times amplification.
- ✓ Low battery consumption [600 hours battery lifetime with 2 pcs AAA batteries]
- ✓ 3.5mm AUX inlet for connecting external audio sources
- ✓ Easy volume control [2 buttons] even if you wear gloves

Compression of the sound instead of cutting of.

600 hours battery life with 2 pcs AAA, fully waterproof battery compartment.
Automatic shut off and warning sound when batteries have 40 hours power left.

Foldable, slim design cups for both right- and left handed shooters

AUX inlet [Supreme Pro] for connection external audio sources, [standard 3,5 mm]

Supreme Pro

Our top model. The base for all Pro products
